

99% Cosmetic Grade Copper Peptide Ghk-Cu Powder CAS 49557-75-7

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: HPLC , UV
- Model Number: HBY-GHK-Cu
- Minimum Order Quantity: 1g
- Price: Negotiable
- Packaging Details: 2mg/vial, 10vials per box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: Western Union, T/T, MoneyGram
- Supply Ability: 4000kg/Month

Product Specification

- Product: Ghk-Cu 1g
- Grade: Cosmetic Grade
- Appearance: Blue Powder
- Purity: 99%Min
- Certificate: GMP/ISO9001
- Storage Temperature: In Cool,dry Place
- Specification: 2mg/vial, 10vials Per Box
- MOQ: 1g
- Highlight: CAS 49557-75-7 Cosmetic Peptide ,
Cosmetic Grade Copper Peptide Ghk-Cu,
99% Copper Peptide Ghk-Cu

Product Description

What is 99% Cosmetic Grade CAS 49557-75-7 Copper Peptide Ghk-Cu Powder Ghk-Cu?

Basic Information:

Product Name	99% Cosmetic Grade CAS 49557-75-7 Copper Peptide Ghk-Cu Powder Ghk-Cu
Certificate	GMP/ISO9001
Purity	99%
MF	C14h21cun6o4
Storage	Cool dried storage
Orign	China
MOQ	1G

Brief Introduction:

Tripeptide copper, GHK-Cu, is one of the most thoroughly studied peptides, a naturally occurring plasma peptide that declines significantly during the human ageing process. In cosmetic applications, GHK-Cu is used in anti-ageing, anti-wrinkle, post-sunburn, skin renewal, skin moisturisation and hair growth promoting products.

The in vitro studied effect of this carrier peptide is the delivery of copper to the skin to activate the enzymatic wound healing pathway, while the desired in vivo effect is smoother, thicker and firmer skin due to increased collagen production. GHK-Cu has been shown to stimulate collagen and decorin production, improving wound healing and tissue production. GHK-Cu has also been identified to improve ageing skin and hair condition and has antioxidant and anti-inflammatory effects.

Functions of 99% Cosmetic Grade CAS 49557-75-7 Copper Peptide Ghk-Cu Powder Ghk-Cu

1. Skin remodelling is the process of removing oversized proteins and old cells from the skin; in addition, it helps to eliminate scars, lesions and

wrinkles. It creates the smoothness of the skin.

2. Skin remodelling is very active in young people, but it declines rapidly when humans are over 20 years old.

3. Increased skin remodelling is the key to producing biologically youthful skin.

4. The enlargement of hair follicles stimulates hair growth.

Side effects of GHK-Cu 99% Cosmetic Grade CAS 49557-75-7 Copper Peptide Ghk-Cu Powder Ghk-Cu

1. Fatigue

2. Dizziness

3. Nausea

4. Increased appetite

Package and Shipping of 99% Cosmetic Grade CAS 49557-75-7 Copper Peptide Ghk-Cu Powder Ghk-Cu

Shipping:

With 3-5 work days after your payment

FAQ of Raw Material CAS 49557-75-7 Ghk-Cu Copper Peptide For Anti-Aging

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is 1kg.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment .
