

Food Additive 2400gdu Bromelain Enzymes Powder Cas 9001-00-7

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Bromelain Enzyme
- Minimum Order Quantity: 1kg
- Price: Negotiable
- Packaging Details: 20kg/bag or 25kg/drum
- Delivery Time: 3~5 days, upon receipt of payment
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 5000kg per month

Product Specification

- Product Name: Food Additive 2400gdu Bromelain Powder
Bromelain Enzymes Cas 9001-00-7
- Form: White To Cream Powder
- Purity: $\geq 99\%$
- Extraction Type: Solvent Extraction
- Application: Food Additive
- Other Names: FBromelain, Fruit; Bromelain, Juice; Fruit Bromelain; Ananase; Ananases; Bromelain; Bromelains; Bromelase; Bromelases; Bromelin; Bromelins; Debridase; Debridases; E.C. 3.4.22.33; E.C. 3.4.22.5; EC 3.4.22.33; EC 3.4.22.5; Extranase; Extranases; Inflamen; Pi
- Specification: 2400GDU/g
- Cas Number: Cas 9001-00-7
- Highlight: **Cosmetic Peptide Cas 9001-00-7, 2400gdu Bromelain Enzymes Powder, Food Additive Bromelain Enzymes Powder**

Product Description

Food Additive 2400gdu Bromelain Powder Bromelain Enzymes Cas 9001-00-7

Basic Information of Food Additive 2400gdu Bromelain Powder Bromelain Enzymes Cas 9001-00-7 :

Product name	Bromelain Enzyme
Appearance	white to light cream powder
Purity	99%
Application	food additive
Cas number	9001-00-7
Function	Reduced inflammation, Boosted immune system
Extraction Type	Solvent Extraction
Grade	Food
MOQ	1 kg

What Is Food Additive 2400gdu Bromelain Powder Bromelain Enzymes Cas 9001-00-7?

Pineapple protease (Pineapple; Ananas comosus) is a plant protease, a group of complex cysteine sulfhydryl protein hydrolases extracted from pineapples of the genus Pineapple, which are divided into stem and fruit enzymes depending on the site of isolation and extraction.

Bromelain was first used in medicine in 1957 and was immediately recognized as one of the most important medical discoveries of the last 50 years. In addition, in 1961, it was reported that bromelain could be used as an anti-inflammatory aid and an alternative to antibiotics. In the United States and Europe, bromelain is only available to consumers as a general health food and health food. Its health benefits, especially in relieving arthritis pain, have attracted a great deal of medical research. At present, bromelain has begun to be widely used in food, beauty care, and other fields.

How does it work?

Bromelain enzyme works by breaking down proteins into smaller peptides and amino acids. This is done through a process called proteolysis. Proteolysis is an important process in the body that is involved in a variety of functions, including digestion, inflammation, and immunity.

Bromelain enzyme is generally safe for most people when taken in recommended doses. However, it can cause side effects such as stomach upset, diarrhea, and vomiting. Bromelain enzyme may also interact with certain medications, so it is important to talk to your doctor before taking it if you are taking any medications.

The Benefits of Food Additive 2400gdu Bromelain Powder Bromelain Enzymes Cas 9001-00-7

Bromelain enzyme is a proteolytic enzyme, meaning that it breaks down proteins. It is found in the pineapple plant, especially in the stem and core. Bromelain enzyme has been used for centuries in traditional medicine to treat a variety of conditions, including indigestion, inflammation, and pain.

Bromelain is now also available as a dietary supplement. It is often taken to improve digestion, reduce inflammation, and boost the immune system. Bromelain may also be helpful in treating conditions such as asthma, arthritis, and sinus infections.

Here are some of the potential health benefits of bromelain enzyme:

Improved digestion: Bromelain can help to break down proteins and improve digestion. This may be helpful for people with indigestion or other digestive problems.

Reduced inflammation: Bromelain has anti-inflammatory properties. This may be helpful for people with conditions such as arthritis, asthma, and sinus infections.

Boosted immune system: Bromelain may help to boost the immune system and fight off infection.

Reduced pain: Bromelain may help to reduce pain and swelling. This may be helpful for people with conditions such as arthritis and sports injuries.

Bromelain enzyme is generally safe for most people when taken in recommended doses. However, it can cause side effects such as stomach upset, diarrhea, and vomiting. Bromelain enzyme may also interact with certain medications, so it is important to talk to your doctor before taking it if you are taking any medications.
